Education

Deenbandhu Chhotu Ram University of Science and Technology

CGPA: 7.7

Bachelor of Technology in Electronics and Communication

Aug. 2019 – July 2023

Saraswati Sr. Sec School

GPA: 8.01

Senior Secondary in PCM with Computer Science

Mar. 2018 – May 2019

Experience

Backend Developer

Sept 2023 – March 2023

Oodles Technologies

Gurugram, India

- Leading the development of powerful software solutions using Node.js, Express, PostgreSQL, MongoDB, and Postman.
- Implementing Docker to ensure smooth project development, contributing to the efficient delivery of solutions.
- Collaborating with diverse teams to design and deploy impactful solutions, playing a key role in various projects.

Software Developer Intern

Feb 2023 – Aug 2023

iTuple Technologies

Gurugram, India

- Utilized Node.js, MongoDB, Express, HTML, CSS, Swagger, Git, and GitHub during a hands-on internship at iTuple Technologies, contributing significantly to the development of RESTful APIs and innovative web solutions.
- Actively engaging in challenging projects and embracing modern development practices.

Projects

SecureSign | Oodles Technologies | [Link](#)

- Designed and implemented a secure authentication system utilizing two-step verification with OTP, leveraging Redis for efficient storage and automatic expiration, and employing hashed passwords for enhanced security during login.
- Developed a class-based component architecture for seamless user management, enabling streamlined signup, login, and profile editing functionalities while adhering to best practices for data security and user authentication.

AuthGuardian | Oodles Technologies | [Link](#)

- Developed AuthGuardian, a robust role-based authorization system, using Node.js and Express.js for the backend architecture.
- Implemented secure authentication protocols using the ethers library, authenticating users via wallet addresses and private keys for enhanced security.
- Employed MySQL for optimized data storage and management, ensuring data integrity and scalability of the application.

RustyTaskChain | Oodles Technologies | [Link](#)

- Engineered a decentralized todo list application on the Solana blockchain utilizing Rust, enabling users to manage tasks securely and transparently across the decentralized network.

Skill-Up QuesTech | iTuple Technologies | [Link](#)

- QuestEase is a user-friendly web application designed to streamline the process of accessing and managing questions. With features such as user authentication, question filtering based on difficulty levels, and seamless login/logout.

Technical Skills

Backend Development : Java, Node.js, Express.js, RESTful API Development , Server-side Development

Database: SQL, PostgreSQL, MongoDB

Version Control: Git/Github, Docker, Sequelize for (Object-Relational Mapping)

Frontend Technologies: React, HTML, Javascript, CSS for front-end development

Development libraries: Socket.io, JWT, Ethers, Passport

Developer Tools: Postman for Api-Testing and Documentation , VSCode , Linux-OS , Swagger

Additional Skills: Rust, Anchor, Rocket, Diesel, Solana, Blockchain Development

Certification

Software Development Internship | iTuple Technologies Pvt Ltd

Aug 2023

- Developed a comprehensive web application as part of the 6-month Software Development internship.

JavaScript Training Certificate | Udemy

June 2023

- Completed a hands-on project during the JavaScript training course on Udemy.

Project Appreciation Certificate | TECHNOVA

Aug 2023

- Contributed significantly to a project recognized for excellence at TECHNOVA.
